10. Other:		Ldull!			
		SAM RIMELL PRIMARY EXAMINED			

Continuation of 5, does NOT place the application in condition for allowance because:

The applicant's arguments presented in the After Final response, filed on 23-December-2004, have been fully considered but are not deemed persuasive, and the claim limitations of the "finally rejected" claims are still met by the Perkowski (U.S. Publication No. 2003/0139975) and Erickson (U.S. Patent No. 6,412,009) references.

In response to the applicant's arguments that "it does not appear that Perkowski actually has a figure 3C9, the argument has been noted. Figure 3C9 was mistakenly (typing error) referenced by the examiner instead of figure 3A9. The examiner regrets any inconveniences caused by this error.

In response to the applicant's arguments regarding the "motivation" of combining the two references, Erickson clearly teaches: "The sending of only the Keep-Alive data in a chunk allows the connection to remain alive even during periods of inactivity" (see column 9, lines 17-19.)

With respect to the remaining arguments presented by the applicant, the arguments have been addressed in the previous Office Action (the applicant is kindly directed to the response to arguments section, pages 11-14 of the Final Rejection, mailed on 20-October-2004).
